1 Semantics, content, and structure of many for the creation of personal photo albums
Susanne Boll, Philipp Sandhaus, Ansgar Scherp, Utz Westermann
September 2007 **MULTIMEDIA '07:** Proceedings of the 15th international conference on Multimedia
Publisher: ACM
Full text available: pdf(1.83 MB) Additional Information: full citation, abstract, references, index terms

Photos are often a means to remember personal events, and the creation of photo albums is the attempt to preserve our memories in a nice book. For a long time people have been creating such photo albums on the basis of prints from analog photos arranged ...

Keywords: Web 2.0, multimedia semantics, personal photo collections, photo album authoring, photo annotation

1 UMEA: translating interaction histories into project contexts

Victor Kaptelinin
April 2003 **CHI '03:** Proceedings of the SIGCHI conference on Human factors in computing systems
Publisher: ACM

Full text available: pdf(232.45 KB) Additional Information: full citation, abstract, references, cited by, index terms

Virtual environments based on the desktop metaphor provide limited support for creating and managing project-specific work contexts. The paper discusses existing approaches to supporting higher-level user activities and presents a system named UMEA (User-Monitoring ...

Keywords: activity theory, interaction histories

2 Email in personal information management

Steve Whittaker, Victoria Bellotti, Jacek Gwizdka
January 2006 **Communications of the ACM**, Volume 49 Issue 1
Publisher: ACM

Full text available: pdf(180.36 KB) html(28.03 KB) Additional Information: full citation, abstract, references, cited by, index terms

Email's conduit function means the inbox, folders, search, and sort are used to support core PIM functions of task management, personal archiving, and contact management.

3 AppleScript

William R. Cook
June 2007 **HOPL III:** Proceedings of the third ACM SIGPLAN conference on History of programming languages
Publisher: ACM

Full text available: pdf(621.56 KB) Additional Information: full citation, appendices and supplements, abstract, references, index terms

AppleScript is a scripting language and environment for the Mac OS. Originally conceived in 1989, AppleScript allows end users to *automate* complex tasks and *customize* Mac OS applications. To automate tasks, AppleScript provides standard ...

4 Inner circle: people centered email client

Andrzej Turski, Debbie Warnack, Lili Cheng, Shelly Farnham, Susan Yee
April 2005 **CHI '05:** CHI '05 extended abstracts on Human factors in computing systems
Publisher: ACM

Full text available: pdf(438.94 KB) Additional Information: full citation, abstract, references, index terms

We present an automatic people-centered organization of the email message store, where all the information is organized by the association with the message sender or recipients. By using a zoomable list control, we can show most frequent contacts on ...

Keywords: asynchronous collaboration, categorization, email, email-based sharing, organization, zooming user interface

5 BuzzTrack: topic detection and tracking in email

Gabor Cselle, Keno Albrecht, Roger Wattenhofer
January 2007 **IUI '07:** Proceedings of the 12th international conference on Intelligent user interfaces
Publisher: ACM

Full text available: pdf(519.88 KB) Additional Information: full citation, abstract, references, index terms

We present BuzzTrack, an email client extension that helps users deal with email overload. This plugin enhances the interface to present messages grouped by topic, instead of the traditional approach of organizing email in folders. We discuss a clustering ...

Keywords: clustering, email, organization, sender behavior, topic detection, topic tracking

6 One-hundred days in an activity-centric collaboration environment based on shared objects

Michael J. Muller, Werner Geyer, Beth Brownholtz, Eric Wilcox, David R. Millen
April 2004 **CHI '04:** Proceedings of the SIGCHI conference on Human factors in computing systems
Publisher: ACM

Full text available: pdf(473.26 KB) Additional Information: full citation, abstract, references, cited by, index terms

This paper describes a new collaboration technology that is carefully poised between informal, ad hoc, easy-to-initiate collaborative tools, vs. more formal, structured, and high-overhead collaborative applications. Our approach focuses on the support ...

Keywords: CSCW, activity-centric collaboration, computer-mediated communication, synchronous/asynchronous collaboration, user study

7 Keeping found things found on the web

William Jones, Harry Bruce, Susan Dumais
October 2001 **CIKM '01:** Proceedings of the tenth international conference on Information and knowledge management
Publisher: ACM

Full text available: pdf(1.41 MB) Additional Information: full citation, abstract, references, cited by, index terms

This paper describes the results of an observational study into the methods people use to manage web information for re-use. People observed in our study used a diversity of methods and associated tools. For example, several participants emailed web ...

Keywords: human-computer interaction, information retrieval, personal information management, world wide web use

8 Application independent metadata generation

Jürgen Belizki, Stefania Costache, Wolfgang Nejdl

November 2006 **CAMA '06:** Proceedings of the 1st international workshop on Contextualized attention metadata: collecting, managing and exploiting of rich usage information

Publisher: ACM

Full text available: pdf(564.39 KB) Additional Information: full citation, abstract, references, index terms

To efficiently support personal ways of desktop usage, we have to unleash the power of implicit metadata thus giving local data a well defined meaning. To achieve this, contextual information across heterogeneous media types, file formats, and applications ...

Keywords: contextualized metadata

9 Unified associative information storage and retrieval

Brandon Rothrock, Brad A. Myers, Sophie H. Wang

April 2006 **CHI '06:** CHI '06 extended abstracts on Human factors in computing systems

Publisher: ACM

Full text available: pdf(353.46 KB) Additional Information: full citation, abstract, references, index terms

We present a novel system for performing information management in a unified manner. Users currently must manage large amounts of data which may be fragmented across file formats and applications. Our system, called Iolite, attempts to consolidate this ...

Keywords: information management

10 Revisiting Whittaker & Sidner's "email overload" ten years later

Danyel Fisher, A. J. Brush, Eric Gleave, Marc A. Smith

November 2006 **CSCW '06:** Proceedings of the 2006 20th anniversary conference on Computer supported cooperative work

Publisher: ACM

Full text available: pdf(214.85 KB) Additional Information: full citation, abstract, references, index terms

Ten years ago, Whittaker and Sidner [8] published research on email overload, coining a term that would drive a research area that continues today. We examine a sample of 600 mailboxes collected at a high-tech company to compare how users organize their ...

Keywords: email, email overload, personal information management

11 Usability and privacy: a study of Kazaa P2P file-sharing

Nathaniel S. Good, Aaron Krekelberg
April 2003 **CHI '03:** Proceedings of the SIGCHI conference on Human factors in computing systems
Publisher: ACM

Full text available: pdf(444.04 KB) Additional Information: full citation, abstract, references, cited by, index terms

P2P file sharing systems such as Gnutella, Freenet, and KaZaA, while primarily intended for sharing multimedia files, frequently allow other types of information to be shared. This raises serious concerns about the extent to which users may unknowingly ...

Keywords: Peer-to-peer networks

12 Participatory design with proxies: developing a desktop-PDA system to support people with aphasia

Jordan L. Boyd-Graber, Sonya S. Nikolova, Karyn A. Moffatt, Kenrick C. Kin, Joshua Y. Lee, Lester W. Mackey, Marilyn M. Tremaine, Maria M. Klawe
April 2006 **CHI '06:** Proceedings of the SIGCHI conference on Human Factors in computing systems
Publisher: ACM

Full text available: pdf(625.71 KB) Additional Information: full citation, abstract, references, index terms

In this paper, we describe the design and preliminary evaluation of a hybrid desktop-handheld system developed to support individuals with aphasia, a disorder which impairs the ability to speak, read, write, or understand language. The system allows ...

Keywords: aphasia, assistive technology, multi-modal interfaces, participatory design

13 Email overload at work: an analysis of factors associated with email strain

Laura A. Dabbish, Robert E. Kraut
November 2006 **CSCW '06:** Proceedings of the 2006 20th anniversary conference on Computer supported cooperative work
Publisher: ACM

Full text available: pdf(210.05 KB) Additional Information: full citation, abstract, references, index terms

Almost every office worker can relate to feelings of email overload and stress, but in reality the concept of email strain is not well understood. In this paper, we describe a large-scale nationwide organizational survey examining the relationship between ...

Keywords: computer-mediated communication, coordination, e-mail, electronic mail, email, overload, strain, stress

14 Enterprise wide electronic mail using IMAP

Jay Graham
November 1999 **SIGUCCS '99:** Proceedings of the 27th annual ACM SIGUCCS conference on User services: Mile high expectations
Publisher: ACM

Full text available: pdf(19.29 KB) Additional Information: full citation, references, index terms

Keywords: IMAP, POP, client-server, e-mail, legacy

15 The Roma personal metadata service
Edward Swierk, Emre Kiciman, Nathan C. Williams, Takashi Fukushima, Hideki Yoshida, Vince Laviano, Mary Baker
October 2002 **Mobile Networks and Applications**, Volume 7 Issue 5
Publisher: Kluwer Academic Publishers
Full text available: pdf(221.38 KB) Additional Information: full citation, abstract, references, index terms

People now have available to them a diversity of digital storage facilities, including laptops, cell phone address books, handheld devices, desktop computers and web-based storage services. Unfortunately, as the number of personal data repositories increases, ...

Keywords: data synchronization, distributed data storage, distributed databases, metadata, mobile computing, personal systems

16 Supporting activity-centric collaboration through peer-to-peer shared objects
Werner Geyer, Jürgen Vogel, Li-Te Cheng, Michael Muller
November 2003 **GROUP '03:** Proceedings of the 2003 international ACM SIGGROUP conference on Supporting group work
Publisher: ACM
Full text available: pdf(366.92 KB) Additional Information: full citation, abstract, references, cited by, index terms

We describe a new collaborative technology that is mid-way between the informality of email and the formality of shared workspaces. Email and other ad hoc collaboration systems are typically lightweight and flexible, but build up an unmanageable clutter ...

Keywords: activity-centric collaboration, emerging collaboration, object-centric sharing, peer-to-peer, replication, synchronization

17 Group and Individual Time Management Tools: What You Get is Not What You Need
A. E. Blandford, T. R. G. Green
January 2001 **Personal and Ubiquitous Computing**, Volume 5 Issue 4
Publisher: Springer-Verlag
Full text available: pdf(250.35 KB) Additional Information: full citation, abstract, cited by, index terms

Some studies of diaries and scheduling systems have considered how individuals use diaries with a view to proposing requirements for computerised time management tools. Others have focused on the criteria for success of group scheduling systems. Few ...

18 Fast, flexible filtering with phlat
Edward Cutrell, Daniel Robbins, Susan Dumais, Raman Sarin
April 2006 **CHI '06:** Proceedings of the SIGCHI conference on Human Factors in computing systems
Publisher: ACM
Full text available: pdf(1.46 MB) Additional Information: full citation, abstract, references, cited by, index terms

Systems for fast search of personal information are rapidly becoming

ubiquitous. Such systems promise to dramatically improve personal information management, yet most are modeled on Web search in which users know very little about the content that they ...

Keywords: PIM, interactive information retrieval, personal information management, search interface, tagging, user interfaces

19 Distributed directory service in the Farsite file system
John R. Douceur, Jon Howell
November 2006 **OSDI '06:** Proceedings of the 7th symposium on Operating systems design and implementation
Publisher: USENIX Association
Full text available: pdf(509.72 KB) Additional Information: full citation, abstract, references

We present the design, implementation, and evaluation of a fully distributed directory service for Farsite, a logically centralized file system that is physically implemented on a loosely coupled network of desktop computers. Prior to this work, the ...

20 O—IMAP in 90 days or how to migrate 25,000 users to IMAP in three months
Jay Graham
October 2000 **SIGUCCS '00:** Proceedings of the 28th annual ACM SIGUCCS conference on User services: Building the future
Publisher: ACM
Full text available: pdf(123.22 KB) Additional Information: full citation, index terms

Keywords: IMAP, POP, client-server, e-mail, legacy

21 Semantic-Chunks a middleware for ubiquitous cooperative work

Luís Veiga, Paulo Ferreira
November 2005 **ARM '05:** Proceedings of the 4th workshop on Reflective and adaptive middleware systems
Publisher: ACM

Full text available: pdf(279.64 KB) Additional Information: full citation, abstract, references, index terms

To be productive, cooperative work has to be supported efficiently so that users do achieve their goals. This requires solving the well known fundamental problem of replicas consistency.*Update-based* solutions are easy to use transparently with ...

Keywords: consistency, file systems, mobility, office applications, replication

22 MyLifeBits: a personal database for everything

Jim Gemmell, Gordon Bell, Roger Lueder
January 2006 **Communications of the ACM**, Volume 49 Issue 1
Publisher: ACM

Full text available: pdf(521.40 KB) html(32.21 KB) Additional Information: full citation, abstract, references, cited by, index terms

Developing a platform for recording, storing, and accessing a personal lifetime archive.

23 Informing the design of an information management system with iterative fieldwork

Victoria Bellotti, Ian Smith
August 2000 **DIS '00:** Proceedings of the 3rd conference on Designing interactive systems: processes, practices, methods, and techniques
Publisher: ACM

Full text available: pdf(645.09 KB) Additional Information: full citation, abstract, references, cited by, index terms

We report on the design process of a personal information management system, Raton Laveur, and how it was influenced by an intimate relationship between iterative fieldwork and design thinking. Initially, the system was conceived as a paper-based UI ...

24 Stuff I've seen: a system for personal information retrieval and re-use

Susan Dumais, Edward Cutrell, JJ Cadiz, Gavin Jancke, Raman Sarin, Daniel C. Robbins

July 2003 **SIGIR '03:** Proceedings of the 26th annual international ACM SIGIR conference on Research and development in informaion retrieval

Publisher: ACM

Full text available: pdf(372.80 KB) Additional Information: full citation, abstract, references, cited by, index terms

Most information retrieval technologies are designed to facilitate information discovery. However, much knowledge work involves finding and re-using previously seen information. We describe the design and evaluation of a system, called *Stuff I've ...*

***Keywords**: interactive information retrieval, personal information management, user interfaces, user studies*

25 Shared family calendars: Promoting symmetry and accessibility

Catherine Plaisant, Aaron Clamage, Hilary Browne Hutchinson, Benjamin B. Bederson, Allison Druin

September 2006 **ACM Transactions on Computer-Human Interaction (TOCHI)**, Volume 13 Issue 3

Publisher: ACM

Full text available: pdf(2.91 MB) Additional Information: full citation, abstract, references, index terms

We describe the design and use of a system facilitating the sharing of calendar information between remotely located, multi-generational family members. Most previous work in this area involves software enabling younger family members to monitor their ...

Keywords: Home, calendar, digital paper, elderly, family technology, layered interface, privacy, universal usability

27 Experiences in building and operating ePOST, a reliable peer-to-peer application

Alan Mislove, Ansley Post, Andreas Haeberlen, Peter Druschel

April 2006 **EuroSys '06:** Proceedings of the ACM SIGOPS/EuroSys European

Conference on Computer Systems 2006
Publisher: ACM

Full text available: pdf(382.48 KB) Additional Information: full citation, abstract, references, index terms

Peer-to-peer (p2p) technology can potentially be used to build highly reliable applications without a single point of failure. However, most of the existing applications, such as file sharing or web caching, have only moderate reliability demands. Without ...

Keywords: decentralized systems, electronic mail, peer-to-peer, reliability

28 E-mail as habitat: an exploration of embedded personal information management
Nicolas Ducheneaut, Victoria Bellotti
September 2001 **interactions**, Volume 8 Issue 5
Publisher: ACM

Full text available: pdf(100.04 KB) html(33.80 KB) Additional Information: full citation, references, cited by, index terms

29 Innovation in extremis: evolving an application for the critical work of email and information management
Victoria Bellotti, Nicolas Ducheneaut, Mark Howard, Ian Smith, Christine Neuwirth
June 2002 **DIS '02:** Proceedings of the 4th conference on Designing interactive systems: processes, practices, methods, and techniques
Publisher: ACM

Full text available: pdf(87.55 KB) Additional Information: full citation, abstract, references, cited by, index terms

We describe our experience of trying to develop a novel application that transforms information management (both coordination-based and personal) from stand-alone resources into resources deeply embedded in email. We explored two models for accomplishing ...

Keywords: Extreme Programming, Personal Information Management, TaskMaster, ThinkDoc, XP, email, workflow

30 Experiences in building and operating ePOST, a reliable peer-to-peer application
Alan Mislove, Ansley Post, Andreas Haeberlen, Peter Druschel
October 2006 **EuroSys '06: ACM SIGOPS Operating Systems Review**, Volume 40 Issue 4
Publisher: ACM

Full text available: pdf(382.48 KB) Additional Information: full citation, abstract, references, index terms

Peer-to-peer (p2p) technology can potentially be used to build highly reliable applications without a single point of failure. However, most of the existing applications, such as file sharing or web caching, have only moderate reliability demands. Without ...

Keywords: decentralized systems, electronic mail, peer-to-peer, reliability
